How Your Money Is Managed

The global trend specialist applies proprietary quantitative, momentum-driven investment models to make security selection decisions within a diversified range of mandates: North American sector rotation, international equity rotation, emerging markets equity rotation, commodities, and fixed income credit. Counsel Global Trend Strategy seeks to invest in securities with positive momentum characteristics, while systematically avoiding markets and securities where momentum is negative.

Investment Specialist

One of the most important factors for Portfolio success is having the ideal investment specialist for your investment. The investment specialist selected for Counsel Global Trend Strategy is Mount Lucas Management LP.

Effective Currency Exposure

Counsel Portfolio Services uses forward contracts to hedge against unfavourable performance from changes in the U.S. Dollar ("USD") exchange rate when Counsel expects the USD to decrease in value.

	Canadian Dollar Exposure	Foreign Currency Exposure
Before Hedging	0.00%	100.00%
After Hedging	75.00%	25.00%

Counsel or the investment specialists have the discretion to change the effective currency exposure at any time after the date of this publication. For information on the Portfolio or the underlying Counsel funds, please read the Fund Facts, Simplified Prospectus and/or other reporting documents before investing, available at www.counselservices.com.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
