- Low tolerance for risk.

How Your Money Is Managed

Your Income Portfolio is managed from a global perspective, with a style neutral investment strategy. We utilize a comprehensive multi sub-advisor approach, each with its own unique investment methodology. The optimal target mix is diversified by: asset classes, geographic regions, market capitalization, investment managers and investment styles. We maintain the optimal target mix by strategically and automatically rebalancing the Portfolio regularly. The target weights of the Portfolio are periodically reviewed, utilizing capital market assumptions provided by an independent portfolio modelling service, to enhance the risk-return profile of the Portfolio.

Effective Currency Exposure

The Counsel Investment Solution may use forward contracts to hedge risk related to changes in exchange rates. Counsel has the discretion to change the effective currency exposure at any time after the date of publication. The current target hedge on U.S. dollar exposure is 25%.

Counsel or the investment specialists have the discretion to change the effective currency exposure at any time after the date of this publication. For information on the Portfolio or the underlying Counsel funds, please read the Fund Facts, Simplified Prospectus and/or other reporting documents before investing, available at www.counsel.services.com.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
