Target Portfolio Mix

Key Reasons To Invest In This Portfolio

- Seeks to provide regular income with the potential for long-term capital growth.
- Low tolerance for risk.

How Your Money Is Managed

Your High Income Portfolio is managed from a global perspective, with a style neutral investment strategy. We utilize a comprehensive multi sub-advisor approach, each with its own unique investment methodology. The optimal target mix is diversified by: asset classes, geographic regions, market capitalization, investment managers and investment styles. We maintain the optimal target mix by strategically and automatically rebalancing the Portfolio regularly. The target weights of the Portfolio are periodically reviewed, utilizing capital market assumptions provided by an independent portfolio modelling service, to enhance the risk-return profile of the Portfolio.

Effective Currency Exposure

Counsel Portfolio Services uses forward contracts to hedge against unfavourable performance from changes in the U.S. Dollar ("USD") exchange rate when Counsel expects the USD to decrease in value.

	Canadian Dollar Exposure	Foreign Currency Exposure
Before Hedging	35.90%	64.10%
After Hedging	79.25%	20.75%

Counsel or the investment specialists have the discretion to change the effective currency exposure at any time after the date of this publication. The Portfolio invests in underlying mutual funds (which may be managed by Counsel) currently sub-advised by the sub-advisors listed beside each investment mandate. For information on the underlying funds, please read the Fund Facts and Simplified Prospectus before investing, available at www.counselservices.com.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
