Every effort has been made to ensure that the information contained in this report is accurate as of September 30, 2018; however, the Fund cannot guarantee the accuracy or the completeness of this material. Please refer to the Fund's Simplified Prospectus and audited annual financial statements for more information.

CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

November 13, 2018

This Interim Management Report of Fund Performance is intended to present the significant factors and developments that have affected the Fund's performance and outlook since March 31, 2018, the Fund's last fiscal year-end. For information on the Fund's longer-term performance, please refer to the *Past Performance* section of the report. In this report, "Counsel" refers to Counsel Portfolio Services Inc., the manager of the Fund.

In addition, net asset value (NAV) refers to the value of the Fund or a series as calculated for transaction purposes, on which the discussion of Fund performance is based.

The Fund is not available to retail investors and is only available to other institutional investors (primarily other Counsel Funds).

Results of Operations

Investment Performance

The performance of the Fund's Series O securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Series returns may differ for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of different levels of fees and expenses charged to each series. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by each series.

During the six-month period, the Fund's Series O securities returned 7.43%. This compares with a 7.08% return of the broad-based MSCI World Index. All index and series returns are calculated on a total return basis in Canadian dollar terms.

The Fund outperformed the index primarily due to the Fund's overweight positioning in Health Care and underweight positioning in the Industrials and Financials sectors. By design, the Fund held securities with lower betas, meaning they have less correlation to the broader equity market. Because of these lower-beta holdings, the Fund's volatility was significantly lower than the MSCI World, meeting its objective.

The Fund's was unhedged against the U.S. Dollar ("USD") throughout the period. During the six-month period, the USD appreciated 0.32% against the Canadian Dollar ("CAD"). As a result, the Fund's USD exposure contributed to the Fund's performance.

The Fund was unhedged against international currencies, other than the USD. During the period, the CAD appreciated by 5.56% against a broad basket of international currencies, as weighted in the MSCI EAFE index. As a result, the Fund's foreign currency exposure had a negative impact on performance.

Net Assets

The Fund's NAV increased by \$12.2 million, or 26.5%, to \$58.4 million as at September 30, 2018, from \$46.2 million at March 31, 2018. Of this increase, \$8.4 million was attributable to net sales and \$3.8 million due to investment performance (after deducting fees and expenses).

Certain other Counsel Funds ("Top Funds") have large investments in the Fund, see *Other Related Party Transactions* for details. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Simplified Prospectus. Counsel manages this risk to reduce the possibility of any adverse effect on the value of the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

Fees and Expenses

The Management Expense Ratio ("MER") for Series O of 0.02%, during the period ended September 30, 2018, was slightly higher than the MER of 0.01% for the year ended March 31, 2018. No expenses (including management or administration fees) are charged to Series O, other than certain specific fund costs (primarily interest). The MER primarily represents the Fund's proportionate share of expenses in underlying investment funds. The MERs (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Global equity markets showed synchronized growth early in the period, but that has subsided by the end of the period on trade concerns with a new round of tariffs between the US and China. Positive U.S. economic data and improved sentiment in Japan have supported equities. Eurozone sovereign bonds fell as global bond yields rose on rising signs of wage inflation while Italian spreads, although down slightly in September, rose at month-end on disappointing developments on the Italian budget proposals for 2019.

The main risk is concern around global trade. Global growth could be threatened if the recent spate of tariff announcements continues, and the measures announced (and possibly more tariffs) are actually implemented. In such a scenario, current global growth and earnings expectations would prove to be too optimistic and equity valuation multiples would probably decline, leading to falls in equity markets.

Ultimately, the sub-advisor believes the well-known costs associated with a global trade war will prevent this happening. Recent success in the USMCA trade negotiations, and the agreement between the U.S. and Japan to enter bilateral trade talks, for example, suggest a worst-case trade outcome can be avoided. An additional risk is the ongoing reduction of policy accommodation by global central banks. A withdrawal of accommodative policy has been well flagged and should not be a surprise to investors. It is occurring because global growth has improved to the point where the level of policy accommodation provided since the financial crisis is no longer required. We believe the positive growth backdrop will offset any negative impact on equity markets from reduced levels of policy accommodation.

Related Party Transactions

Management and Administration Services

Top Funds represent nearly all of the Fund's investors. As a result, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. No management or administration fees are paid by the Fund.

Other Related Party Transactions

Other investment funds managed by Counsel ("Top Funds") invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At September 30, 2018, Top Funds owned nearly 100% of the Fund's NAV. As of September 30, 2018, Counsel had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation, or standing instruction from the Counsel Funds' Independent Review Committee ("IRC") with respect to any related party transactions.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counselservices.com.

	Date of Inception	Minimum Investment (\$)	Management Fee (%)	Administration Fee (%)
Series O ^{1,3}	January 7, 2016	-	-	-
Series R ^{2,3}	January 7, 2016	-	-	-

¹ There are no management or administration fees for this series since these securities are designed to facilitate fund-of-fund investing where duplication of management fees is prohibited.

² This series is not available for sale and is held solely by Counsel.

³ Securities of this series are not subject to sales charges or redemption charges.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS.

² The net assets presented here and in the financial statements and this table may differ from the NAV.

³ NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

⁴ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

⁵ MER and MER before waivers or absorptions ("Gross MER") are based on total expenses borne by the Fund, excluding commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period.

Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

⁶ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as a percentage of daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁷ The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.
