CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 7, 2018

This Management Discussion of Fund Performance intends to present the significant factors and developments during the year ended March 31, 2018, that have affected the Fund's performance and outlook. For information on the Fund's longer-term performance, as applicable, please refer to the Past Performance section of the report. In this report, Counsel or the Manager refers to Counsel Portfolio Services Inc., the manager of the Fund.

In addition, net asset value (NAV) refers to the value of the Fund or a series as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks current income and preservation of invested capital by investing primarily in short-term Canadian money market instruments. The Fund seeks to maintain a constant net asset value of \$10 per security.

Risk

The risks of investing in the Fund remain as discussed in the Fund's Simplified Prospectus. The Fund is suitable for investors who: seek a Canadian money market fund to hold as part of their portfolio; want a short-term investment; and have a low tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund's Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Series returns may differ for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of different levels of fees and expenses charged to each series. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the year, the Fund's Series A securities returned 0.12% (after deducting fees and expenses). This compares with a 0.77% return of the FTSE TMX Canada 30 Day T-Bills Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, none of which are reflected in the index returns.

The Fund underperformed the index during the period primarily because it is required to maintain adequate liquidity to facilitate redemptions, whereas the index is always fully invested. Underperformance is also owed, in part, to the extremely low interest rate environment that persists in Canada and in much of the world. The Fund does not focus on trying to time interest rate changes but rather on maximizing the yield of the holdings while minimizing the default risk. As a result, the Fund was invested in short-term corporate bonds and provincial short-term discount notes. The Fund's performance reflects Counsel's decision to temporarily waive a portion of its management fees. Without waivers, certain series would have experienced negative performance in the period.

As at March 31, 2018, the current yield was 0.20% for Series A, 0.81% for Series C, 0.43% for Series D, 1.27% for Series I, and 1.44% for Series O. Yields on 30-day treasury bills increased from 0.47% at March 31, 2017 to 1.08% at March 31, 2018.

Net Assets

The Fund's NAV declined by \$4.0 million, or 15.3%, to \$22.3 million as at March 31, 2018, from \$26.3 million at March 31, 2017. This decrease was almost entirely attributable to net redemptions.

Certain other Counsel Funds ("Top Funds") and/or investment products managed by Counsel's affiliates have large investments in the Fund, see *Other Related Party Transactions* for details. As a result of these investments, the Fund is subject to large transaction risk as discussed in the Simplified Prospectus. Counsel manages this risk to reduce the possibility of any adverse effect on the value of the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

Fees and Expenses

The Management Expense Ratio ("MER") for Series A of 0.89%, during the year ended March 31, 2018, was higher than the MER of 0.65% for the year ended March 31, 2017. The MER increased due to decreased waivers of management fees by Counsel in the current year. Counsel may discontinue the practice of absorbing management fees at any time without prior notice to investors. The MERs (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

The Bank of Canada (the "BoC") recently revised its economic outlook upward to incorporate the positive input for stronger potential output growth for the remainder of 2018 and 2019. The primary input for stronger potential output is expected to be consumption fueled by elevated consumer confidence and ongoing employment and wage increases. For the remainder of 2018, inflation is expected to hover just above 2% primarily resulting from increase in gasoline prices and minimum wage increases. General market sentiment is that the BoC will raise rates once more sometime in 2018; however, there are many factors that could influence the BoC to either pause rate increases or accelerate them. The outcome of NAFTA renegotiations with the U.S. and Mexico is one of the major factors that will weigh heavily on the likelihood of further increases.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Other Related Party Transactions

Other investment funds managed by Counsel (Top Funds) invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2018, Top Funds owned 13.3% of the Fund's NAV. As of March 31, 2018, Counsel had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation, or standing instruction from the Counsel Funds' Independent Review Committee (IRC) with respect to any related party transactions.

Management Fees

The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund commission payments and other compensation (collectively, "Distribution Related Payments") paid to the dealers and brokers for securities of the Fund bought and held by investors.

The following dealers, who are affiliated with Counsel, may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

During the year, approximately 42% of the total management fee revenues received from all Counsel funds were used to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 33% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. The lower proportion of Distribution Related Payments is primarily attributable to the Fund having a lower trailing commission compared to other Counsel Funds.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counselinvestments.com.

	Date of Inception	Minimum Investment (\$)	Management Fee ⁷ (%)	Administration Fee ⁷ (%)
Series A ¹	February 15, 2000	1,000	0.95	0.16
Series C ^{1,5}	January 26, 2007	1,000	0.70	0.16
Series F ^{2,3,8,9}	November 27, 2009	1,000	0.70	0.15
Series I ^{2,3,4,7,8}	January 21, 2008	1,000	-	0.15
Series O3,6	January 13, 2016	-	-	-

¹ As described in the Fund's Simplified Prospectus, securities of this series purchased under the sales charge purchase option may be subject to a fee of up to 5%; securities purchased under the redemption charge or low-load purchase options may be subject to a redemption fee of up to 6% or 3% respectively.

² A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor. Investors in this series may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

³ Securities of this series are not subject to sales charges or redemption charges.

⁴ The management fee for this series is 0.70% and is payable directly to Counsel generally through the monthly redemption of securities.

⁵ This series is only available to investors utilizing the Counsel Advisor-Directed Rebalancing ("Counsel ADR") service.

⁶ There are no management or administration fees for this series since these securities are designed to facilitate fund-of-fund investing where duplication of management fees is prohibited.

⁷ Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors.

⁸ Effective October 28, 2016, the Series F administration fee was reduced from 0.16% to 0.15%. Additionally, the minimum investment for Series I was reduced from \$150,000 to \$1,000.

⁹ Prior to October 27, 2017, this series was called Series D.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Past performance may have been impacted by the following events:

- During some performance measurement periods certain fees or expenses may have been waived or absorbed by the Manager. There is no assurance that fees will be waived in the future.
- In January 2010, the Fund began to pay a fixed administration fee. In exchange, the Manager began to pay certain operating costs and expenses that had previously been paid by the Fund.

Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's audited annual financial statements prepared in accordance with IFRS.

² The net assets per security presented here and in the financial statements and this table may differ from the NAV per security.

³ NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

⁴ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

⁵ MER and MER before waivers or absorptions ("Gross MER") are based on total expenses borne by the Fund, excluding commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by proposed decreases in management fees and/or administration fees as discussed under *Series Information*.

Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

⁶ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as a percentage of daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁷ The portfolio turnover rate is not disclosed for the Fund, as it is not applicable to money market funds.
