How Your Money Is Managed

The U.S. growth equities investment specialist normally holds a core position of between 20 and 30 common stocks. This may vary occasionally when they are accumulating new positions, phasing out and replacing existing positions, or responding to exceptional market conditions. They follow a growth investment style and invest primarily in large cap stocks. They select securities by combining elements of “top-down” macroeconomic analysis with “bottom-up” company and stock selection. Diversification is achieved through investments in a variety of sectors across the U.S. market. Depending on the prevailing market conditions, Counsel U.S. Growth may also invest in U.S. fixed income securities and equity and fixed income securities of issuers anywhere in the world.

Investment Specialist

One of the most important factors for Portfolio success is having the ideal investment specialist for your investment. The investment specialist selected for Counsel U.S. Growth is Marsico Capital Management LLC.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.
