### Key Reasons To Invest In This Portfolio

- Seeks to achieve a balance between income and capital growth with a conservative level of investment risk.
- Ideal for investors who are retired or near retirement and desire an investment that seeks to minimize Portfolio losses during periods of down markets.
- Also for investors with a focus on preservation of capital, who will use this Portfolio as their primary source of savings for their retirement.

### How Your Money Is Managed

Your Retirement Preservation Portfolio utilizes a comprehensive multi sub-advisor approach, each with its own unique investment methodology. The Portfolio employs two key protection strategies: reduce equity market exposure during periods of market stress, and invest in global equity securities issued in developed markets that are better insulated from changes in the economy. These key protection strategies are combined with globally managed components in optimally allocated proportions to protect and grow your investment.

### Target Portfolio Allocation<sup>1</sup>

### Performance (%) Compound Returns

Period	1 mth	3 mth	6 mth	1 yr	3 yr	5 yr	10 yr	Inception Return	Inception Date

### Effective Currency Exposure

The Counsel Investment Solution uses forward contracts to hedge against unfavourable Portfolio performance by changes in exchange rates. The Portfolio manager or sub-advisor has the discretion to change the effective currency exposure at any time after the date of publication.

	Canadian Dollar Exposure	Foreign Currency Exposure
Before Hedging	39.62%	60.38%
After Hedging	83.08%	16.92%

Counsel or the investment specialists have the discretion to change the effective currency exposure at any time after the date of this publication. For information on the Portfolio or the underlying Counsel funds, please read the Fund Facts, Simplified Prospectus and/or other reporting documents before investing, available at [www.counsel.services.com](http://www.counsel.services.com).

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
