### CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

# Management Discussion of Fund Performance

November 13, 2018

This Interim Management Report of Fund Performance is intended to present the significant factors and developments that have affected the Fund's performance and outlook since March 31, 2018, the Fund's last fiscal year-end. For information on the Fund's longer-term performance, please refer to the *Past Performance* section of the report. In this report, "Counsel" refers to Counsel Portfolio Services Inc., the manager of the Fund.

In addition, net asset value (NAV) refers to the value of the Fund or a series as calculated for transaction purposes, on which the discussion of Fund performance is based.

## Results of Operations

### Investment Performance

The performance of the Fund's Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Series returns may differ for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of different levels of fees and expenses charged to each series. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the six-month period, the Fund's Series A securities returned 1.95% (after deducting fees and expenses). This compares with a 3.29% return of blended benchmark comprised of 45% FTSE TMX Canada Universe Total Return Index (returned -0.45%), 40% S&P/TSX Composite Total Return Index (returned 6.16%) and 15% MSCI World Total Return Index (returned 7.08%) (the "Blended Benchmark"). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, none of which are reflected in the index returns.

The Fund underperformed the broad-based S&P/TSX Composite Total Return Index. The broad-based index is comprised of Canadian equities and has no exposure to fixed income securities, whereas the Fund invests in both equities and fixed-income securities. Given the Fund's composition, the Blended Benchmark provides a more meaningful comparison for relative performance.

The Fund underperformed the Blended Benchmark due to its investment in Counsel Global Fixed Income. The underlying fund detracted from performance due to its yield curve positioning in Asia and South America as well as its foreign currency exposure, particularly the South African Rand.

The Fund's investment in RBC Canadian Dividend Fund contributed to performance. RBC Canadian Dividend Fund outperformed its benchmark primarily due to security selection in Materials, Telecommunication Services, Consumer Discretionary and Consumer Staples

Between April 1, 2018 and June 6, 2018, the Fund's effective target hedge against the U.S. Dollar ("USD") ranged from 25% to 50%. The hedge was removed on June 6, 2018. During the six-month period, the USD appreciated 0.32% against the Canadian Dollar ("CAD"). As a result, the currency hedge detracted from the Fund's performance.

The Fund was generally unhedged against international currencies, other than the USD. During the period, the CAD appreciated by 5.56% against a broad basket of international currencies, as weighted in the MSCI EAFE index. As a result, the Fund's foreign currency exposure had a negative impact on performance.

### Net Assets

The Fund's NAV declined by \$42.7 million, or 6.6%, to \$608.5 million as at September 30, 2018, from \$651.2 million at March 31, 2018. Of this decrease, \$55.6 million was attributable to net redemptions and \$1.6 million of distributions paid to securityholders. This was partially offset by a \$14.5 million increase due to investment performance (after deducting fees and expenses).

### Fees and Expenses

The Management Expense Ratio ("MER") for Series A of 2.47%, during the period ended September 30, 2018, was slightly higher than the MER of 2.45% for the year ended March 31, 2018. The MERs (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

## Recent Developments

The Fund has significant exposure Canada, so it is highly sensitive to changes in the Canadian economy and the Canadian stock market, which rebounded well during the period after a weak start to the year, led by strength in the Energy sector. However, domestic economic growth slowed and concern about trade protectionism intensified as the period progressed, leading the Bank of Canada ("BoC") to take a more cautious approach toward raising interest rates. The combination of rising borrowing costs, a weaker housing market and uncertainty about the future of North American trade conspired to dampen Canadian growth. The successful conclusion of the trade talks should enable the BoC to resume increasing interest rates. Expanding valuations have been a significant source of gains for stocks during this long bull market, but sustained earnings growth will be critical to drive stocks higher from here. Our longer-term view remains that investors should give equities the benefit of the doubt as long as the economic, credit, and earnings cycles remain favorable for stocks, even with the short-term volatility experienced in October.

Rising bond yields are an ongoing concern as bond prices decline when yields are rising. At the end of the third quarter, bond yields approached 3%, a level above which they may become attractive as an alternative to dividend stocks. Counsel Global Fixed Income continues to hold shorter duration EM securities which are less sensitive to rate increases and provide diversification to the Fund's fixed income investments. Counsel believes that the recent downturn in Emerging Market Bonds has made their valuations more attractive on a relative basis.

Subsequent to the end of the period, the Fund re-introduced its effective target hedge against the USD gradually increasing it to 95%. The USD hedge is dynamic and may vary between 0-100% at Counsel's discretion based on its assessment of currency market conditions. The Fund is expected to remain generally unhedged against currencies other than the USD for the foreseeable future.

## Related Party Transactions

### Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

### Portfolio Transaction Services

IPC Investment Corporation, an affiliate of Counsel, provides portfolio transaction services to the Fund when the Fund invests directly in securities of mutual funds other than Counsel Funds. The Fund pays no brokerage commissions or fees on these investment transactions.

### Other Related Party Transactions

The Fund did not rely on an approval, positive recommendation, or standing instruction from the Counsel Funds' Independent Review Committee ("IRC") with respect to any related party transactions.

## Management Fees

The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund commission payments and other compensation (collectively, "Distribution Related Payments") paid to the dealers and brokers for securities of the Fund bought and held by investors.

The following dealers, who are affiliated with Counsel, may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

During the period, approximately 40% of the total management fee revenues received from all Counsel funds were used to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 41% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

## Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at [www.counselservices.com](http://www.counselservices.com).

<sup>1</sup> As described in the Fund's Simplified Prospectus, securities of this series purchased under the sales charge purchase option may be subject to a fee of up to 5%; securities purchased under the redemption charge or low-load purchase options may be subject to a redemption fee of up to 6% or 3% respectively.

<sup>2</sup> This series is designed for investors who want to receive a fixed per security monthly distribution.

<sup>3</sup> A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor. Investors in this series may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus. Securities of this series are not subject to sales charges or redemption charges.

<sup>4</sup> This series is designed for investors who want to receive a monthly cash distribution at an annualized rate of up to 5% per year. Effective October 26, 2018, this series is no longer available for purchase.

<sup>5</sup> This series is designed for investors who want to receive a monthly cash distribution at an annualized rate of up to 8% per year.

<sup>6</sup> The management fee for this series is 0.95% and is payable directly to Counsel generally through the monthly redemption of securities.

<sup>7</sup> Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors.

<sup>8</sup> Prior to October 27, 2017, Series F, F5, and FT were respectively called Series D, Series DB, and DT.

<sup>9</sup> This series is available solely to those investing through a private client service offering from IPC Investment Corporation and IPC Securities Corporation.

## Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Past performance may have been impacted by the following events:

- In January 2010, the Fund began to pay an administration fee. In exchange, the Manager began to pay certain operating costs and expenses that had previously been paid by the Fund.
- Prior to the introduction of the administration fee, certain fees or expenses may have been waived by the Manager.

## Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

<sup>1</sup> These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS.

<sup>2</sup> The net assets presented here and in the financial statements and this table may differ from the NAV.

<sup>3</sup> NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

<sup>4</sup> Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

<sup>5</sup> MER and MER before waivers or absorptions ("Gross MER") are based on total expenses borne by the Fund, excluding commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by proposed decreases in management fees and/or administration fees as discussed under *Series Information*.

Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

<sup>6</sup> The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as a percentage of daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

<sup>7</sup> The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.
