Every effort has been made to ensure that the information contained in this report is accurate as of September 30, 2019; however, the Fund cannot guarantee the accuracy or the completeness of this material. Please refer to the Fund's Simplified Prospectus and audited annual financial statements for more information.

CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

November 12, 2019

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. (“Counsel”) on the significant factors and developments during the period ended September 30, 2019, that have affected the Fund’s performance and outlook. For information on the Fund’s longer-term performance please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series as calculated for transaction purposes, on which the discussion of Fund performance is based.

Results of Operations

Investment Performance

The performance of the Fund’s Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Series returns may differ for a number of reasons, including if the series was not issued and outstanding for the entire reporting period and because of different levels of fees and expenses charged to each series. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the six-month period, the Fund’s Series A securities returned 1.26% (after deducting fees and expenses). This compares with a 3.78% return of a blended benchmark comprised of 35% Bank of America Merrill Lynch High Yield Total Return Index (returned 2.89%), 30% FTSE TMX Canada Universe Total Return Index (returned 3.73%), 20% S&P/TSX Composite Dividend Total Return Index (returned 5.63%) and 15% MSCI ACWI High Dividend Yield Total Return Index (returned 3.12%) (the “Blended Benchmark”). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, none of which are reflected in the index returns.

The Fund underperformed the broad-based FTSE TMX Canada Universe Bond Index. The broad-based index is comprised of fixed income and has no exposure to equities and commodities whereas the Fund invests in equities, commodities, and fixed income credit instruments. Given the Fund’s composition, the Blended Benchmark provides a more meaningful comparison.

The Fund underperformed the Blended Benchmark due to its investment in Counsel Global Fixed Income. This underlying fund detracted from performance primarily due to its underweighted exposure to U.S. Treasuries. Among its currency positions in Latin America, the Argentine peso detracted from performance.

Additionally, the investment in Bluebay Emerging Market Corporate Bond Fund detracted primarily due to its allocation to Argentina and selection within Brazil.

During the period, the Canadian dollar (“CAD”) appreciated 0.94% against the U.S. Dollar (“USD”). As a result, the Fund’s USD currency exposures negatively impacted fund performance; the Fund’s target hedge in effect at the beginning and the end of the period modestly offset some of this impact.

The Fund is predominantly unhedged against international currencies other than the USD. During the period, the CAD appreciated by 2.96% against a broad basket of international currencies, as weighted in the MSCI EAFE index. As a result, the Fund’s non-USD currency exposures negatively impacted the Fund’s performance.

Net Assets

The Fund’s NAV increased by \$15.7 million, or 38.0%, to \$56.9 million as at September 30, 2019, from \$41.2 million at March 31, 2019. Of this increase, \$22.0 million was attributable to the Fund’s merger with Counsel Income Portfolio and \$0.7 million due to investment performance (after deducting fees and expenses). This was partially offset by \$7 million of net redemptions.

Fees and Expenses

The Management Expense Ratio (“MER”) for Series A of 2.50%, during the period ended September 30, 2019, was slightly lower than the MER of 2.54% for the year ended March 31, 2019. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Global equity markets generated low-to-mid single-digit returns during the six-month period, cooling after a strong start to the year. Supportive interest rate policies from global central banks counterbalanced a deteriorating economic and earnings backdrop. With absolute valuations close to historical all-time highs, Counsel believes there is limited upside in equity markets over the remainder of the year, particularly as economic risks and uncertainties remain. With further downward revisions to both economic and earnings forecasts possible, we believe the risks to equity markets are currently skewed to the downside; an effectively diversified portfolio helps to mitigate this risk.

If there is continued upside to equity markets, the Fund is adequately positioned to participate. We also believe the Fund should be able to limit the potential impact of a correction by equity markets should that occur. We continue to maintain the Fund’s investment in Counsel Retirement Income Portfolio to provide an element of downside protection against market stress.

The challenge income-oriented investors face is that over a third of global government bonds now trade at negative inflation-adjusted yields, which leads to a somewhat speculative search for income generation. We have an allocation to higher yielding emerging market bonds to generate income. Given the range of geopolitical and economic uncertainties, we believe an effectively diversified portfolio helps to mitigate this risk.

In conjunction with its merger with Counsel Income Portfolio on September 13, 2019, the Fund rebalanced its holdings including the removal of Bluebay Emerging Markets Corporate Bond Fund from its holdings.

The underlying equity funds’ target effective hedge of 50% against USD exposure was eliminated in mid-October 2019. The USD hedge is dynamic and may vary between 0-100% at our discretion based on our assessment of currency market conditions. The Fund is expected to remain predominantly unhedged against currencies other than the USD subject to our discretion based on our assessment of currency market conditions.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Portfolio Transaction Services

IPC Investment Corporation, an affiliate of Counsel, provides portfolio transaction services to the Fund when the Fund invests directly in securities of mutual funds other than Counsel Funds. The Fund pays no brokerage commissions or fees on these investment transactions.

Other Related Party Transactions

The Fund relied on a positive recommendation from the Counsel Funds’ Independent Review Committee (“IRC”) with respect to its merger with Counsel Income Portfolio on September 13, 2019.

Management Fees

The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund commission payments and other compensation (collectively, "Distribution Related Payments") paid to the dealers and brokers for securities of the Fund bought and held by investors.

The following dealers, who are affiliated with Counsel, may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

During the period, approximately 35% of the total management fee revenues received from all Counsel funds were used to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 34% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counselinvestments.com.

	Date of Inception	Minimum Investment (\$)	Management Fee ⁵ (%)	Administration Fee ⁵ (%)
Series A ¹	July 13, 2012	1,000	1.94	0.25
Series E ^{6,7}	September 13, 2019	75,000	1.67	0.25
Series F ^{2,7,8}	July 13, 2012	1,000	0.94	0.15
Series I ^{2,4,5,7}	July 13, 2012	1,000	-	0.15
Series T ^{1,3}	July 13, 2012	1,000	1.95	0.25

¹ As described in the Fund's Simplified Prospectus, securities of this series purchased under the sales charge purchase option may be subject to a fee of up to 5%; securities purchased under the redemption charge or low-load purchase options may be subject to a redemption fee of up to 6% or 3% respectively. Effective September 13, 2019, the management fee for this series was decreased from 1.95% to 1.94%.

² A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor. Investors in this series may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

³ This series is designed for investors who want to receive a monthly cash distribution at an annualized rate of up to 8% per year.

⁴ The management fee for this series is 0.94% and is payable directly to Counsel generally through the monthly redemption of securities. On September 13, 2019, the management fee was reduced from 0.95% to 0.94%.

⁵ Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors.

⁶ This series is not available for purchase.

⁷ Securities of this series are not subject to sales charges or redemption charges.

⁸ Effective September 13, 2019, the management fee for this series was decreased from 0.95% to 0.94%.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

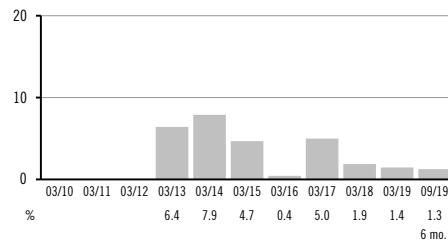

Past performance may have been impacted by the waiving of certain fees or expenses by the Manager.

Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the period. The percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS.

² The net assets presented here and in the financial statements and this table may differ from the NAV.

³ NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

⁴ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

⁵ MER and MER before waivers or absorptions ("Gross MER") are based on total expenses borne by the Fund, excluding commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by proposed decreases in management fees and/or administration fees as discussed under *Series Information*.

Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

⁶ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as a percentage of daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁷ The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.
