Key Reasons To Invest In This Fund

- Seeks to achieve long term capital growth primarily by employing a strategy that seeks to identify global market trends.
- The Fund will invest either directly or through securities of other investment funds, primarily in global equity securities.
- Seeks to reduce downside risk.

How Your Money Is Managed

The global trend specialist applies proprietary quantitative, momentum-driven investment models to make security selection decisions within a diversified range of mandates: North American sector rotation, international equity rotation, emerging market equity rotation, commodities, and fixed income credit. Counsel Global Trend Strategy seeks to invest in securities with positive momentum characteristics, while systematically avoiding markets and securities where momentum is negative.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.
