ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the year ended March 31, 2022

Fund Manager
Counsel Portfolio Services Inc.

This Annual Management Report of Fund Performance contains financial highlights but does not contain either the annual or interim financial statements of the investment fund. You may obtain a copy of the financial statements, at no cost, by calling toll-free at 1-877-216-4979, by writing to us at Counsel Portfolio Services Inc, 5015 Spectrum Way, Suite 300, Mississauga, Ontario, L4W 0E4, by visiting our website at www.counsel-services.com or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus, Annual Information Form and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset value per security for series available via prospectus and for more recent information on general market events, please visit our website.

CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 3, 2022

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. (“Counsel”) on the significant factors and developments during the year ended March 31, 2022 that have affected the Fund’s performance and outlook. For information on the Fund’s longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks to achieve long-term capital appreciation by investing in a variety of global equity mutual funds (the Underlying Funds).

Risk

The risks of investing in the Fund remain as discussed in the Fund’s Simplified Prospectus. The Fund is suitable for investors who: seek a global equity fund to hold as a key part of their portfolio; want a medium to long-term investment; can handle the volatility of stock markets; and have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund’s Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the year, the Fund’s Series A securities returned 4.93% (after deducting fees and expenses). This compares with the 11.22% return of a blended benchmark comprised of 83.33% MSCI World Net Total Return Index (returned 9.44%) and 16.67% S&P/TSX Composite Index (returned 20.19%) (the “Blended Benchmark”). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

Global markets generally rose but were volatile over the period. Lockdowns related to new COVID-19 variants caused chaotic economic reopening as semiconductor, commodity and labour shortages negatively affected supply chains. Russia’s invasion

of Ukraine disrupted energy markets, particularly in the eurozone. Several advanced economies had annual inflation above 5%, the highest in more than two decades. The period ended with a massive investor rotation out of growth stocks, which are relatively sensitive to interest rates, and into lower-priced value stocks. Norway, Canada and Denmark were the strongest-performing markets, while Ireland, New Zealand and Hong Kong were the weakest. The Energy, Information technology and Real estate sectors were the strongest performers, while Communication services, Industrials and Consumer discretionary were the weakest.

The Fund underperformed the broad-based MSCI World Total Return Index. The broad-based index is comprised of equities weighted by market capitalization to different regions, whereas the Fund has a substantially larger allocation to Canada. Given the Fund’s composition, the Blended Benchmark provides a more meaningful comparison.

The Fund underperformed the Blended Benchmark due to an underweight allocation to U.S. equities, which outperformed the MSCI World. The Fund’s investment in Counsel Global Small Cap also detracted from performance due to security selection within Financials and Consumer Staples and allocation decisions related to the United States and Israel.

During the year, the U.S. dollar (“USD”) depreciated 0.52% against the Canadian dollar (“CAD”). The underlying equity funds’ target hedge against the USD varied from 0% to 50% hedge during the period and contributed positively relative to the unhedged Blended Benchmark. The Euro (“EUR”) and British Pound (“GBP”) depreciated 6.16% and 4.26% respectively against the CAD detracting from the Fund’s performance. Target hedges maintained throughout the period of from 0% to 50% and from 0% to 25% against the EUR and GBP respectively partially offset this impact. Additionally, the Japanese Yen (“JPY”) depreciated 9.49% against the CAD detracting from the Fund’s performance.

Net Assets

The Fund’s NAV increased by \$5.4 million, or 9.4%, to \$63.4 million as at March 31, 2022, from \$58.0 million at March 31, 2021. Of this increase, \$3.6 million was attributable to investment performance (after deducting fees and expenses) and \$1.8 million due to net sales.

Fees and Expenses

The annualized management expense ratio (“MER”) for each series during the year ended March 31, 2022, was generally similar to the MER for the year ended March 31, 2021. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

Ongoing uncertainty regarding the duration and long-term impact of the COVID-19 pandemic and the effectiveness of vaccines against new variants of the virus contributes to uncertainty regarding the timing of a full economic recovery. As a result, it is not possible to reliably estimate the impact of the pandemic on the financial results and condition of the Fund in future periods.

The Counsel portfolio management team expects global stock markets to deliver lower returns than in recent years as central banks tighten global liquidity and growth in corporate earnings slows. Nevertheless, the team believes that long-term equity yields remain attractive relative to the current exceptionally low yields of fixed income. In the team’s view, key risks include persistently high inflation and the possible emergence of new COVID-19 variants. Bond returns suffered from expectations of rising interest rates in the period. At the end of Q1 2022, markets had priced in a U.S. federal funds rate of 2.50% and a Bank of Canada overnight rate of 2.50% by the end of 2022. Though the team believes it is unlikely that rates will be raised higher than already expected, a potential trigger for further increases would be signs that high inflation is becoming entrenched in long-term expectations accompanied by rapidly accelerating wage growth. However, supply-chain indicators appeared to be improving at the end of Q1 2022, which the team believes may relieve some of the built-up price pressures.

Effective September 22, 2021, Atul Tiwari was appointed to the Counsel Funds’ Independent Review Committee.

Effective April 14, 2022, Counsel eliminated the period-end target 25% hedge against the USD and on May 18, 2022, Counsel eliminated the other 25% target hedge against the EUR. Currency hedging is dynamic and may vary between 0-100% at our discretion based on our assessment of currency market conditions.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Other Related Party Transactions

During the year, the Fund relied on standing instructions from the Counsel Funds' Independent Review Committee ("IRC") with regards to asset re-allocations.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund trailing commissions and other compensation (collectively, "Distribution Related Payments") paid to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Counsel may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Counsel used approximately 33% of the total management fee revenues received from all Counsel funds to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 27% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. The lower proportion of Distribution Related Payments is primarily attributable to the Fund's higher management fee rate compared to other Counsel Funds.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The bar charts show how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The charts illustrate how the Fund's performance has changed over time.

SERIES I

SERIES F

SERIES PRIVATE WEALTH

Annual Compound Returns

The Annual Compound Return table shows the annual compound total return for each series of the Fund for the periods shown ended March 31, 2022. The annual compound total return is also compared to the Fund's benchmark(s)¹ calculated on the same compound basis.

(%)	1 yr	3 yrs	5 yrs	10 yrs	Since inception ²
Series A	4.93	7.05	5.63	7.57	n/a
Series F	6.26	8.41	6.96	9.02	n/a
Series I	7.59	9.77	8.32	10.50	n/a
Series Private Wealth	7.59	9.77	n/a	n/a	7.35
Blended Benchmark	11.22	12.77	10.91	12.71	11.44
MSCI World Total Return Index	9.44	12.43	10.96	13.38	11.20
S&P/TSX Total Return Index	20.19	14.15	10.34	9.08	12.36

¹ The Blended Benchmark is composed of 16.67% S&P/TSX Total Return Index and 83.33% MSCI World Total Return Index. The return of the Blended Benchmark will not equal the proportionate sum of the returns of its components due to monthly rebalancing factored in the calculation of the Blended Benchmark's returns.

The MSCI World Total Return Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets.

The S&P/TSX Total Return Index tracks the performance of some of the largest and most widely held stocks listed on the Toronto Stock Exchange.

² The inception return is only provided when a series has been active for a period of less than 10 years. As a result, benchmark figures presented are only for Series Private Wealth.

Summary of Investment Portfolio

as at March 31, 2022

The holdings of the Fund as at the end of the period and the major asset classes in which the Fund was invested are indicated below. The investments and percentages may have changed by the time you purchase securities of this Fund. The top 25 holdings are made available quarterly, 60 days after quarter-end, except for March 31, which is the fiscal year-end for the Fund, when they are available after 90 days. Please see the front page for information about how they can be obtained.

The effective allocation shows the sector, regional and currency exposure of the Fund calculated by including the Fund's proportionate share of its holdings in Underlying Funds. The Simplified Prospectus and other information about each of the Underlying Funds are available on the SEDAR website at www.sedar.com.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception to the end of that fiscal period.

Series inception dates can be found under *Series Information*.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 2 of the Fund's Financial Statements.

² NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

¹ This information is provided as at the end of the fiscal period shown.

² MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁴ The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counsel-services.com.

Series	Date of Inception	Minimum Investment (\$)	Management Fee ⁴ (%)	Administration Fee ⁴ (%)
Series A ¹	January 15, 2002	1,000	2.10	0.31
Series F ²	February 13, 2006	1,000	1.15	0.15
Series I ^{2,3,4}	March 1, 2006	1,000	–	0.15
Series Private Wealth ⁵	May 1, 2018	1,000	–	0.15

¹ Series A is the only series subject to sales or redemption charges; these charges are based on purchase options chosen. Securities purchased under the sales charge option may be subject to a negotiated fee of up to 5% at time of initial purchase. Securities previously purchased under the redemption charge or low-load options may be subject to a redemption fee of up to 5% or 2% respectively (based on date of initial purchase); new securities are not available under these options but may be acquired through switching from other Counsel funds. Effective June 15, 2022, the series' management fee and administration fee will be reduced to 1.95% and 0.25% respectively.

² A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor. Effective June 15, 2022, the series' management fee will be reduced to 0.90% (including Series I management fee which is charged directly to investors).

³ The management fee for this series is 1.15% and is payable directly to Counsel generally through the monthly redemption of securities.

⁴ Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

⁵ There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.
