CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 8, 2021

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. (“Counsel”) on the significant factors and developments during the year ended March 31, 2021 that have affected the Fund’s performance and outlook. For information on the Fund’s longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks income and long-term capital growth by investing primarily in global real estate stocks and real estate investment trusts (REITs) that present better than expected returns relative to the risk taken. The Fund may also invest in equity and fixed income securities of issuers anywhere in the world depending upon prevailing market conditions.

Risk

The risks of investing in the Fund remain as discussed in the Fund’s Simplified Prospectus. The Fund is suitable for investors who: seek exposure to real estate investments within their portfolio; want a long-term investment; can handle the volatility of real estate markets; and have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund’s Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the year, the Fund’s Series A securities returned 20.07% (after deducting fees and expenses). This compares to a 20.05% return from the FTSE EPRA/NAREIT Developed Real Estate Index and a 36.01% return from the broad-based MSCI World Total Return Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest

in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

Most global equity markets rebounded to all-time highs following the pandemic-driven collapse in March 2020. News of successful vaccine development helped lift stocks expected to benefit from the lifting of lockdown restrictions. However, waves of COVID-19 infections and hospitalizations in the second half of the period slowed reopening in many regions. In response, governments continued to provide significant stimulus to boost struggling economies. Global real estate securities ended the year positive but lagged many other sectors. Within Commercial Real Estate, the pandemic created challenging headwinds for some property types but provided encouraging tailwinds for others, thus making its recovery look more K-shaped than V-shaped.

The Fund underperformed the broad-based index due to the Fund’s dedicated exposure to real estate holdings (including REITs) which underperformed the broader equity market. The broad-based index is designed to measure the performance of developed equity markets, whereas the Fund invests primarily in real estate stocks and REITs. Given the Fund’s composition, the mandate-specific FTSE EPRA/NAREIT Developed Real Estate Index provides a more meaningful comparison for relative performance.

The Fund slightly outperformed the mandate-specific index over the period due to the Fund’s security selection within the Industrials sector in Hong Kong, Australia, and Canada.

During the year, the U.S. dollar (“USD”) depreciated 10.87% against the Canadian dollar (“CAD”). As a result, the Fund’s USD exposures detracted from returns. Selected hedging activities against the USD contributed relative to the unhedged indices with the Fund ending the period with a 37.5% target hedge.

The Euro (“EUR”), British Pound (“GBP”) and Japanese Yen (“JPY”) depreciated 5.12%, 0.69%, and 13.39% respectively against the CAD, detracting from the Fund’s performance. Selected hedging activities against the EUR and GBP also contributed to relative performance with the Fund ending the period with a 50% target hedge on the EUR and 25% target hedge against the GBP.

Net Assets

The Fund’s NAV increased by \$118.5 million, or 66.6%, to \$296.4 million as at March 31, 2021, from \$177.9 million at March 31, 2020. Of this increase, \$75.0 million was attributable to net sales and \$43.5 million to investment performance (after deducting fees and expenses). Net sales were primarily to institutional investors as discussed under the *Other Related Party Transactions* section of this report.

Fees and Expenses

The Management Expense Ratio (“MER”) for Series A of 2.65%, during the year ended March 31, 2021, was unchanged from the year ended March 31, 2020. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund’s performance in future periods.

The trend of increased vaccination rates and the re-opening of the economies positively affects market valuations of the previously negatively impacted sectors in global real estate such as lodging, retail, office, senior housing, and select multi-family markets, with their share prices recovering. The pace of vaccinations will play a critical role in relative performance differences by region.

Although REITs in the U.S. have recaptured most of their gains that were lost in the pandemic, the sub-advisor sees further upside potential, particularly for companies that own hotels in leisure fly-to destination markets. The sub-advisor also believes the underperformance of retail REITs in Europe and Asia is creating pockets of opportunity. That said, the sub-advisor remains cautious on the retail markets overall and feels the industry may continue to experience headwinds even after COVID-19.

Effective February 24, 2021, Martin Taylor retired as a member of the Counsel Funds’ Independent Review Committee.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Other Related Party Transactions

Other investment funds managed by Counsel (“Top Funds”) invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. Series Private Wealth securities are issued on a prospectus-exempt basis to investors in discretionary managed account programs offered by IPC Securities Corporation, an affiliate of Counsel. As a result of these investments, the Fund is subject to large transaction risk as discussed in its Simplified Prospectus. Counsel manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At March 31, 2021, Top Funds owned 82.7% of the Fund’s NAV and Series Private Wealth investors owned 15.7% of the Fund’s NAV. During the year, these large investors made significant subscriptions to the Fund. As of March 31, 2021, Counsel had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

The Fund did not rely on an approval, positive recommendation, or standing instruction from the Counsel Funds’ Independent Review Committee (“IRC”) with respect to any related party transactions.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund’s management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund trailing commissions and other compensation (collectively, “Distribution Related Payments”) paid to registered dealers and brokers whose clients invest in the Fund.

The following dealers, who are affiliated with Counsel, may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

During the year, approximately 33% of the total management fee revenues received from all Counsel funds were used to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments

for the Fund represented 37% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. As Series E of this Fund pays lower management fees than Series A of most other Counsel Funds while paying the same trailer fee, Distribution Related Payments comprise a higher proportion of the Fund’s management fee than the average for all Counsel Funds.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

¹ *Broad Based – MSCI World Total Return Index*

The MSCI World Total Return Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets.

Style Based – FTSE EPRA/NAREIT Global Real Estate Index

The FTSE EPRA/NAREIT Global Real Estate index was developed by the European Public Real Estate Association (EPRA), a common interest group aiming to promote, develop and represent the European public real estate sector, and the North American Association of Real Estate Investment Trusts (NAREIT), the representative voice of the US REIT industry. The index series is designed to reflect the stock performance of companies engaged in specific aspects of the North American, European and Asian Real Estate markets. According to a survey conducted by ABN AMRO, the index is used by 75% of global real estate investors and managers.

² The inception return is only provided when a series has been active for a period of less than 10 years.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 2 of the Fund's Financial Statements.

² NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

¹ This information is provided as at the end of the fiscal period shown.

² MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁴ The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counselservices.com.

	Date of Inception	Minimum Investment (\$)	Management Fee ⁶ (%)	Administration Fee ⁶ (%)
Series A ¹	January 7, 2009	1,000	2.05	0.34
Series E ⁷	January 7, 2009	75,000	1.87	0.34
Series F ²	January 7, 2009	1,000	1.05	0.15
Series I ^{2,3,6}	January 7, 2009	1,000	–	0.15
Series O ⁴	January 7, 2009	–	–	–
Series Private Wealth ⁵	January 7, 2009	–	–	0.15

¹ Series A is the only series subject to sales or redemption charges; these charges are based on purchase options chosen. Securities purchased under the sales charge option may be subject to a negotiated fee of up to 5% at time of initial purchase. Securities previously purchased under the redemption charge or low-load options may be subject to a redemption fee of up to 5.5% or 2.5% respectively (based on date of initial purchase); new securities are not available under these options but may be acquired through switching from other Counsel funds.

² A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor.

³ The management fee for this series is 1.05% and is payable directly to Counsel generally through the monthly redemption of securities.

⁴ There are no management or administration fees for this series since these securities are designed to facilitate fund-of-fund investing where duplication of management fees is prohibited.

⁵ There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.

⁶ Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors (excluding Series E investors) may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

⁷ This series is not available for purchase.
