CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 8, 2021

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. (“Counsel”) on the significant factors and developments during the year ended March 31, 2021 that have affected the Fund’s performance and outlook. For information on the Fund’s longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks to provide regular income with the potential for long-term capital growth by investing primarily in global fixed income securities and equity and equity-like securities that are expected to produce income, either directly or through securities of other mutual funds (the “Underlying Funds”). The Fund’s asset classes range between 50–80% in fixed income securities and 20–50% in equity securities.

Risk

The risks of investing in the Fund remain as discussed in the Fund’s Simplified Prospectus. The Fund is suitable for investors who: seek a global balanced fund to hold as a key part of their portfolio; want a medium to long-term investment; can handle the volatility of stock and bond markets; and have a low tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund’s Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the year, the Fund’s Series A securities returned 10.56% (after deducting fees and expenses). This compares with a 9.02% return of a blended benchmark comprised of 70% FTSE TMX Canada Universe Total Return Index (returned 1.62%), 10% S&P/TSX Composite

Dividend Total Return Index (returned 39.06%) and 20% MSCI ACWI High Dividend Yield Total Return Index (returned 22.43%) (the “Blended Benchmark”). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

Global equity markets, including Canada’s, rebounded to all-time highs following the pandemic-driven collapse in March 2020. News of successful vaccine development helped lift stocks expected to benefit from economic reopening. However, waves of COVID-19 infections and hospitalizations in the second half of the period slowed reopening in many regions. In response, governments and central banks continued to provide significant stimulus and accommodative monetary policies to boost struggling economies. Corporate bonds appreciated while government bonds depreciated, as interest rates rose and inflation expectations increased.

The Fund outperformed the broad-based FTSE TMX Canada Universe Bond Index. The broad-based index is comprised of fixed income and has no exposure to equities and commodities whereas the Fund invests in equities, commodities, and fixed income credit instruments. Given the Fund’s composition, the Blended Benchmark provides a more meaningful comparison.

As a result of aligning our strategic Canada weight with the MSCI World ACWI, the Fund’s blended benchmark weightings were changed from 14% Bank of America Merrill Lynch High Yield Total Return Index, 52% FTSE TMX Canada Universe Total Return Index, 10% S&P/TSX Composite Dividend Total Return Index and 24% MSCI ACWI High Dividend Yield Total Return Index. (the “Old Blended Benchmark”) which returned 10.93%.

The Fund outperformed the Blended Benchmark due to its holdings in Counsel Canadian Dividend and Counsel Global Dividend. Counsel Canadian Dividend contributed due to security selection within the Energy, Materials and Consumer Discretionary sector. Counsel Global Dividend also contributed primarily due to an asset allocation overweight to the Asia Pacific region, specifically Taiwan and Korea, as well as security selection within Consumer Discretionary and Material stocks.

Holdings in the underlying Counsel Income Trend Strategy also detracted primarily due to the strategy not being fully invested in its target Alternative, Equity and High Yield allocations, which performed well in the market upturn throughout Q2 and Q3 2020, instead holding its “safety bucket” of less volatile short-term U.S. treasuries.

During the year, the U.S. dollar (“USD”) depreciated 10.87% against the Canadian dollar (“CAD”). As a result, the Fund’s USD exposures detracted from returns. Selected hedging activities against the USD contributed relative to the Blended Benchmark ending the period with a target hedge of 37.5%.

Net Assets

The Fund’s NAV declined by \$5.3 million, or 11.7%, to \$39.3 million as at March 31, 2021, from \$44.6 million at March 31, 2020. Of this decrease, \$8.1 million was attributable to net redemptions and partially offset by a \$2.8 million increase due to investment performance (after deducting fees and expenses).

Fees and Expenses

The Management Expense Ratio (“MER”) for Series A of 2.47%, during the year ended March 31, 2021, was slightly lower than the MER of 2.50% for the year ended March 31, 2020. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund’s performance in future periods.

While cognizant of this uncertainty, Counsel expects global recovery towards pre-pandemic levels in the remainder of 2021, driven by the rollout of vaccines, fiscal stimulus, and abundant central bank liquidity. In turn, we expect this recovery to continue to support equity markets. Global inflation is forecast to rise slightly in 2021 in part due to emerging supply-side constraint and, despite any short-term changes, we believe that over the longer term, inflation will remain anchored close to the 2% targeted by central banks. While Counsel expects central banks to maintain liquid conditions in support of the global recovery, we believe key risks to the recovery will remain, including the possibility of an extended lockdown due to vaccine rollout delays, new virus variants, and tighter financial conditions if bond yields rise sharply. Counsel believes that bonds remain an attractive diversification tool in creating a resilient portfolio for various future economic scenarios.

In January, Counsel increased the Fund's equity weighting to take advantage of the current global economic recovery, overweighting global small caps and global real estate. Within fixed income, Counsel is overweighting high yield bonds and underweighting core Canadian and global fixed income.

Effective February 24, 2021, Martin Taylor retired as a member of the Counsel Funds' Independent Review Committee.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Portfolio Transaction Services

IPC Investment Corporation, an affiliate of Counsel, provides portfolio transaction services to the Fund when the Fund invests directly in securities of mutual funds other than Counsel Funds. The Fund pays no brokerage commissions or fees on these investment transactions.

Other Related Party Transactions

During the year, the Fund relied on standing instructions from the Independent Review Committee with regards to asset re-allocations.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund trailing commissions and other compensation (collectively, "Distribution Related Payments") paid to registered dealers and brokers whose clients invest in the Fund.

The following dealers, who are affiliated with Counsel, may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

During the year, approximately 33% of the total management fee revenues received from all Counsel funds were used to fund Distribution Related

Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 39% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. As Series E of this Fund pays lower management fees than Series A of most other Counsel Funds while paying the same trailer fee, Distribution Related Payments comprise a higher proportion of the Fund's management fee than the average for all Counsel Funds.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Past performance may have been impacted by the waiving of certain fees or expenses by the Manager.

Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the period. The percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

¹ The Old Blended Benchmark is composed of 52% FTSE TMX Canada Bond Universe Index, 14% ICE Bank of America Merrill Lynch U.S. High Yield Index, 10% S&P/TSX Composite Dividend Total Return Index, and 24% MSCI ACWI High Dividend Yield Index.

The new Blended Benchmark is composed of 70% FTSE TMX Canada Bond Universe Index, 10% S&P/TSX Composite Dividend Total Return Index, and 20% MSCI ACWI High Dividend Yield Index.

The return of the new and Old Blended Benchmark will not equal the proportionate sum of the returns of their components due to monthly rebalancing factored in the calculation of their returns.

The FTSE TMX Canada Universe Bond Index is a broad measure of the total return of Canadian bonds that mature in more than one year. It includes a broad range of Canadian federal, provincial, municipal and corporate bonds rated BBB or higher.

The ICE Bank of America Merrill Lynch U.S. High Yield Index tracks the performance of U.S. dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market.

The S&P/TSX Composite Dividend Index aims to provide a broad-based benchmark of Canadian dividend-paying stocks. The index includes all stocks in the S&P/TSX Composite with positive annual dividend yields as of the latest rebalancing of the S&P/TSX Composite.

The MSCI ACWI High Dividend Yield Index includes large and mid cap stocks across a broad range of developed and emerging markets countries. The index is designed to reflect the performance of equities in the MSCI ACWI with higher than average dividend yields that are both sustainable and persistent.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 2 of the Fund's Financial Statements.

² NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

¹ This information is provided as at the end of the fiscal period shown.

² MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁴ The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counsel.services.com.

	Date of Inception	Minimum Investment (\$)	Management Fee ⁵ (%)	Administration Fee ⁵ (%)

¹ Series A and T are the only series subject to sales or redemption charges; these charges are based on purchase options chosen. Securities purchased under the sales charge option may be subject to a negotiated fee of up to 5% at time of initial purchase. Securities previously purchased under the redemption charge or low-load options may be subject to a redemption fee of up to 5.5% or 2.5% respectively (based on date of initial purchase); new securities are not available under these options but may be acquired through switching from other Counsel funds. Effective September 13, 2019, the management fee for these series was reduced from 1.95% to 1.94%.

² A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor.

³ This series is designed for investors who want to receive a monthly cash distribution at an annualized rate of up to 8% per year.

⁴ The management fee for this series is 0.94% and is payable directly to Counsel generally through the monthly redemption of securities. On September 13, 2019, the management fee was reduced from 0.95% to 0.94%.

⁵ Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors (excluding Series E investors) may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

⁶ This series is not available for purchase.

⁷ Effective September 13, 2019, the management fee for this series was reduced from 0.95% to 0.94%.

⁸ There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in the IPC One Program offered by IPC Securities and agree to pay certain asset-based fees.
