ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the year ended March 31, 2021

Fund Manager

Counsel Portfolio Services Inc.

Sub-advisor

Mawer Investment Management Ltd.

This Annual Management Report of Fund Performance contains financial highlights but does not contain either the annual or interim financial statements of the investment fund. You may obtain a copy of the financial statements, at no cost, by calling toll-free at 1-877-216-4979, by writing to us at Counsel Portfolio Services Inc, 5015 Spectrum Way, Suite 300, Mississauga, Ontario, L4W 0E4, by visiting our website at www.counsel-services.com or by visiting the SEDAR website at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Annual Information Form, which may also be obtained, at no cost, using any of the methods outlined above.

For the Fund's current net asset values per security and for more recent information on general market events, please visit our website listed above.

CAUTION ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements which reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as: "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions which could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in securities legislation, changes in government regulations, changes in tax law, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Counsel Portfolio Services Inc. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

Management Discussion of Fund Performance

June 8, 2021

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. (“Counsel”) on the significant factors and developments during the year ended March 31, 2021 that have affected the Fund’s performance and outlook. For information on the Fund’s longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

Investment Objective and Strategies

The Fund seeks long-term growth of capital, while maintaining a commitment to the protection of its capital by investing primarily in international equity securities. The Fund’s approach to investment selection is value driven. The Fund may also invest in equity and fixed income securities of issuers anywhere in the world depending upon prevailing market conditions.

Risk

The risks of investing in the Fund remain as discussed in the Fund’s Simplified Prospectus. The Fund is suitable for investors who: seek an international equity fund to hold as part of their portfolio; want a long-term investment; can handle the volatility of stock markets; and have a medium tolerance for risk.

Results of Operations

Investment Performance

The performance of the Fund’s Series A securities is discussed below. The performance of all other series offered by the Fund is shown in the *Past Performance* section of this report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Series Information* section of this report for the varying management and administration fees payable by series.

During the year, the Fund’s Series A securities returned 24.31% (after deducting fees and expenses). This compares with a 27.66% return of the broad-based MSCI EAFE Index, and a 25.91% return of the style-based MSCI EAFE Growth Index. All index and series returns are calculated on a total return basis in Canadian dollar terms.

Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index return.

Stocks in developed markets outside North America advanced over the period. Improved economic activity, coupled with continued government and central bank stimulus, supported equity markets even as some European countries entered COVID-19 lockdowns in late March 2021. Although Australia and many European countries outperformed, U.K. equities underperformed despite the signing of a trade and co-operation agreement between the United Kingdom and the European Union in December 2020. Asian markets generally underperformed. Within the MSCI EAFE Index, Austria, Sweden, and the Netherlands were the strongest-performing countries, while Switzerland, Portugal, and New Zealand were the weakest. The Materials, Consumer Discretionary, and Information Technology sectors were the strongest performers, while Healthcare, Consumer Staples, and Energy were the weakest.

The Fund underperformed the broad-based index due to security selection within the Industrials, Materials and Financials sectors. The broad-based index is designed to measure the performance of the overall international equity market, whereas the Fund invests with a focus on growth-oriented equities. Given the Fund’s composition, the style-based index provides a more meaningful comparison for relative performance. The Fund underperformed the style-based index primarily due to security selection within the Industrials and Healthcare sectors.

During the year, the Euro (“EUR”), British Pound (“GBP”) and Japanese Yen (“JPY”) depreciated 5.12%, 0.69%, and 13.39% respectively against the Canadian dollar (“CAD”), detracting from the Fund’s performance. Selected hedging activities against the EUR and GBP contributed to relative performance versus the unhedged indices with the Fund ending the period with a 50% target hedge on the EUR and 25% target hedge against the GBP.

Net Assets

The Fund’s NAV increased by \$94.0 million, or 63.6%, to \$241.6 million as at March 31, 2021, from \$147.6 million at March 31, 2020. Of this increase, \$55.2 million was attributable to net sales and \$38.8 million due to investment performance (after deducting fees and expenses).

Fees and Expenses

The Management Expense Ratio (“MER”) for Series A of 2.53%, during the year ended March 31, 2021, was slightly lower than the MER of 2.54% for the year ended March 31, 2020. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

Recent Developments

Governments worldwide have enacted various measures in seeking to combat the spread of the COVID-19 virus. These measures have led to significant volatility in equity markets and material disruption to businesses globally, resulting in an economic slowdown.

Ongoing uncertainty regarding the duration and long-term impact of the pandemic and the implementation of vaccination programs, as well as the efficacy of government and central bank monetary and fiscal interventions, may continue to affect the Fund’s performance in future periods.

After a year of worrying about the destructive effects of COVID-19, investor psychology seems to be acutely focused on a return to “normal” in the months ahead. But exactly what normal is going forward remains unclear. Certain behavior patterns that have changed because of pandemic-led restrictions may last for a long while.

In the sub-advisor’s view, stock prices continue to reflect a degree of optimism that leaves them vulnerable to setbacks if investors’ expectations are not met. Delays in global COVID-19 vaccination programs or more aggressive virus variants could force the economy to operate below full capacity for a long time. And if governments and central banks don’t effectively navigate the tight rope to an economic recovery, they risk spurring inflation or sabotaging still fragile economies.

Effective February 24, 2021, Martin Taylor retired as a member of the Counsel Funds’ Independent Review Committee.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

Other Related Party Transactions

Other investment funds managed by Counsel (“Top Funds”) invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. Series Private Wealth securities are issued on a prospectus-exempt basis to investors in discretionary managed account programs offered by IPC Securities Corporation, an affiliate of Counsel. As a result of these investments, the Fund is subject to large transaction risk as discussed in its Simplified Prospectus. Counsel manages this risk to

reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At March 31, 2021, Top Funds owned 60.4% of the Fund's NAV and Series Private Wealth investors owned 18.1% of the Fund's NAV. As of March 31, 2021, Counsel had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

During the year, the Fund relied on standing instructions from the Independent Review Committee with regards to investment in companies related to Counsel.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The

Manager also used the management fees to fund trailing commissions and other compensation (collectively, "Distribution Related Payments") paid to registered dealers and brokers whose clients invest in the Fund.

The following dealers, who are affiliated with Counsel, may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation, Investors Group Financial Services Inc. and Quadrus Investment Services Ltd.

During the year, approximately 33% of the total management fee revenues received from all Counsel funds were used to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 30% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series.

Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-Year Returns

The bar chart shows how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage

shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The chart illustrates how the Fund's performance has changed over time.

Series Private Wealth	27.28	7.78	9.99	11.51	n/a
MSCI EAFE Index	27.66	5.13	8.23	8.26	n/a
MSCI EAFE Growth Index	25.91	8.91	10.21	10.00	n/a

¹ *Broad Based – MSCI EAFE Index*

MSCI EAFE® Index (Europe, Australasia, Far East) is a free float-adjusted market capitalization index consisting of a wide range of developed market equity indices (excluding U.S. and Canada).

Style – MSCI EAFE Growth Index

The MSCI EAFE Growth Index is designed to reflect the return of a broad range of growth-oriented stocks from non-North American markets. A two dimensional framework is used for style segmentation in which MSCI EAFE stocks are segmented into value-oriented and growth-oriented are categorized using a multi-factor approach, which uses three variables to define the value investment style characteristics and five variables to define the growth investment style characteristics including forward looking variables.

² The inception return is only provided when a series has been active for a period of less than 10 years.

Summary of Investment Portfolio

as at March 31, 2021

The largest holdings of the Fund (up to 25) as at the end of the period and the major asset classes in which the Fund was invested are indicated below. The investments and percentages may have changed by the time you purchase securities of this Fund. The top 25 holdings are made available quarterly, 60 days after quarter-end, except for March 31, which is the fiscal year-end for the Fund, when they are available after 90 days. Please see the front page for information about how they can be obtained.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception to the end of that fiscal period.

Series inception dates can be found under *Series Information*.

¹ These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 2 of the Fund's Financial Statements.

² NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

¹ This information is provided as at the end of the fiscal period shown.

² MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

⁴ The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

Series Information

The Fund may issue an unlimited number of securities for each series. The number of issued and outstanding securities of each series is disclosed in *Financial Highlights*. A 10-year history of the major changes affecting the Fund can be found in the Fund's Annual Information Form, available at www.counselservices.com.

	Date of Inception	Minimum Investment (\$)	Management Fee ⁶ (%)	Administration Fee ⁶ (%)
Series A ¹	January 7, 2009	1,000	1.99	0.31
Series E ⁷	January 7, 2009	75,000	1.87	0.31
Series F ²	January 7, 2009	1,000	1.03	0.15
Series I ^{2,3,6}	January 7, 2009	1,000	–	0.15
Series O ⁴	January 7, 2009	–	–	–
Series Private Wealth ⁵	January 7, 2009	–	–	0.15

¹ Series A is the only series subject to sales or redemption charges; these charges are based on purchase options chosen. Securities purchased under the sales charge option may be subject to a negotiated fee of up to 5% at time of initial purchase. Securities previously purchased under the redemption charge or low-load options may be subject to a redemption fee of up to 5.5% or 2.5% respectively (based on date of initial purchase); new securities are not available under these options but may be acquired through switching from other Counsel funds.

² A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor.

³ The management fee for this series is 1.03% and is payable directly to Counsel by the investor generally through the monthly redemption of securities.

⁴ There are no management or administration fees for this series since these securities are designed to facilitate fund-of-fund investing where duplication of management fees is prohibited. This series may pay monthly distributions of net income to minimize risks associated with large redemption by other Counsel funds.

⁵ There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.

⁶ Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors (excluding Series E investors) may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.

⁷ This series is not available for purchase.
