ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | March 31, 2023

## Management Discussion of Fund Performance

June 5, 2023

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. ("Counsel") on the significant factors and developments during the year ended March 31, 2023 that have affected the Fund's performance and outlook. For information on the Fund's longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

### Investment Objective and Strategies

The Fund seeks long-term growth of capital, while maintaining a commitment to the protection of its capital by investing primarily in international equity securities. The Fund's approach to investment selection is value driven. The Fund may also invest in equity and fixed income securities of issuers anywhere in the world depending upon prevailing market conditions.

### Risk

The risks of investing in the Fund remain as discussed in the Fund's Simplified Prospectus. The Fund is suitable for investors who: seek an international equity fund to hold as part of their portfolio; want a medium to long-term investment; can handle the volatility of stock markets; and have a medium tolerance for risk.

### Results of Operations

#### Investment Performance

During the year, the Fund's Series A securities returned 5.02% (after deducting fees and expenses). This compares with a 6.86% return of the broad-based MSCI EAFE Index, and an 8.01% return of the style-based MSCI EAFE Value Index. All series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

European equities generated positive returns over the period, and currency movements generally increased returns in Canadian dollar terms. Energy prices, while remaining relatively high, fell as concerns about the possibility of a recession grew. In Europe, inflation declined from peak levels but remained elevated, while bond yields rose significantly. Despite some volatility, Japanese stocks ended the period largely unchanged. In China, the lifting of pandemic-related lockdowns led to swift economic reopening. Within the MSCI EAFE (Net) Index, Denmark, Ireland and Spain were the strongest-performing markets, while Norway, Israel and Australia were the weakest. The Energy, Consumer Discretionary and Consumer Staples sectors were the strongest performers, while Real Estate, Communication Services and Materials were the weakest.

The Fund underperformed the broad-based index due to security selection within France and Norway. The broad-based index is designed to measure the performance of the overall international equity market, whereas the Fund invests with a focus on value-oriented equities. Given the Fund's composition, the style-based index provides a more meaningful comparison for relative performance. The Fund underperformed the style-based index primarily due to security selection within the Healthcare sector and an underallocation to the Energy sector.

During the year, the Euro ("EUR") and British Pound ("GBP") appreciated 6.10% and 1.88% respectively against the Canadian dollar ("CAD") contributing to the Fund's performance as it was generally unhedged against those currencies. The Japanese Yen ("JPY") depreciated 0.78% and against the CAD detracting from the Fund's performance. As of year-end, the Fund maintained a target hedge of 12.5% against the GBP established on March 28, 2023 but was otherwise unhedged as of March 31, 2023.

#### Net Assets

The Fund's NAV declined by \$46.0 million, or 23.0%, to \$154.2 million as at March 31, 2023, from \$200.2 million at March 31, 2022. Of this decrease, \$51.2 million was attributable to net redemptions and slightly offset by a \$5.2 million increase due to investment performance (after deducting fees and expenses).

#### Fees and Expenses

The annualized management expense ratio ("MER") for Series A during the year ended March 31, 2023, was lower than the MER for the year ended March 31, 2022. Total expenses paid may also vary from period to period mainly as a result of changes in average assets in each series. The MERs decreased due to management and administration fee reductions as noted in the *Series Information* section of the report. The MERs for all series (before and after waivers or absorptions, if any) are presented in the *Financial Highlights* section of this report.

### Recent Developments

The sub-advisor notes global equity markets enjoyed good returns as inflation showed signs of cooling and interest rates stabilized. However, the banking concerns due to failures at Silicon Valley Bank and Credit Suisse illustrate the strain higher rates put on the financial system and will likely lead to more financial regulation. On a broader scale, central banks must navigate between inflation fighting and raising interest rates too high. The sub-advisor believes this uncertain period is a good environment for a patient, value-focused investment style, and that returns for active investors over the next five years are likely to be significantly better than recent experience. The sub-advisor's emphasis on stocks exhibiting attractive value and fundamentally improving operations is, in their opinion, well-suited to challenging market conditions like those that exist today.

On April 3, 2023, The Canada Life Assurance Company announced an agreement to acquire Investment Planning Counsel Inc. (the parent company of Counsel). The transaction is expected to be completed within 2023. Counsel will continue operate as manager of the Counsel Funds and the agreement is not expected to impact the Fund's operations.

In late April 2023, Counsel increased the target GBP hedge from 12.5% to 25.0% and introduced a 12.5% hedge against the EUR within the underlying equity funds. Currency hedging is dynamic and may vary between 0-100% at our discretion based on our assessment of currency market conditions.

Effective March 31, 2023, KPMG LLP was appointed as the auditor of the Fund.

### Related Party Transactions

#### Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for: costs of managing the investment portfolio; providing investment analysis and recommendations; making investment decisions; the purchase and sale of the investment portfolio; and providing other services. The Manager also used the management fees to fund trailing commissions and other compensation (collectively, "Distribution Related Payments") paid to registered dealers and brokers whose clients invest in the Fund.

# COUNSEL INTERNATIONAL VALUE

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | March 31, 2023

The following dealers affiliated with Counsel may be entitled to Distribution Related Payments from Counsel on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Counsel used approximately 42% of the total management fee revenues received from all Counsel funds to fund Distribution Related Payments to registered dealers and brokers. In comparison, such Distribution Related Payments for the Fund represented 48% of the management fees paid. This amount is an average percentage of the management fees paid by all series. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions paid for that series. As Series E of this Fund pays lower management fees than Series A of most other Counsel Funds while paying the same trailer fee, Distribution Related Payments comprise a higher proportion of the Fund's management fee than the average for all Counsel Funds.

## Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to Counsel at the annual rates specified under *Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. See also *Management Fees*.

## Other Related Party Transactions

Other investment funds managed by Counsel ("Top Funds") invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. Series Private Wealth securities are issued on a prospectus-exempt basis to investors in discretionary managed account programs offered by IPC Securities Corporation, an affiliate of Counsel. As a result of these investments, the Fund is subject to large transaction risk as discussed in its Simplified Prospectus. Counsel manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At March 31, 2023, Top Funds owned 73.7% of the Fund's NAV and Series Private Wealth investors owned 21.6% of the Fund's NAV. As of March 31, 2023, Counsel had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

During the year, the Fund did not rely on an approval, positive recommendation, or standing instruction from the Counsel Funds' Independent Review Committee ("IRC") with respect to any related party transactions.

## Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

## Year-by-Year Returns

The bar charts show how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The charts illustrate how the Fund's performance has changed over time.

(1) *Broad Based – MSCI EAFE Index*

MSCI EAFE® Index (Europe, Australasia, Far East) is a free float-adjusted market capitalization index consisting of a wide range of developed market equity indices (excluding U.S. and Canada).

*Style – MSCI EAFE Value Index*

The MSCI EAFE Value Index is designed to reflect the return of a broad range of value-oriented stocks from non-North American markets. A two dimensional framework is used for style segmentation in which MSCI EAFE stocks are segmented into value-oriented and growth-oriented are categorized using a multi-factor approach, which uses three variables to define the value investment style characteristics and five variables to define the growth investment style characteristics including forward looking variables.

(2) The inception return is only provided when a series has been active for a period of less than 10 years.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 3 of the Fund's Financial Statements.

(2) NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.
- (4) The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.

Series Private Wealth <sup>5</sup>	January 7, 2009	—	—	0.15

- (1) Series A is the only series subject to sales or redemption charges; these charges are based on purchase options chosen. Securities purchased under the sales charge option may be subject to a negotiated fee of up to 5% at time of initial purchase. Securities previously purchased under the redemption charge purchase option may be subject to a redemption fee of up to 4.5% (based on date of initial purchase); new securities are not available under this option but may be acquired through switching from other Counsel funds. Effective June 15, 2022, the series' management fee and administration fee was reduced from 1.99% and 0.31% respectively.
- (2) A negotiable advisory or asset-based fee (plus sales taxes) is payable by investors to their dealer(s) in connection with the securities held in this series. The fee may be collected by Counsel from the investor's account through redemption of securities and remitted to the dealer at the investor's request. Alternatively, the dealer may collect it directly from the investor.
- (3) The management fee for this series is 0.90% and is payable directly to Counsel generally through the monthly redemption of securities.
- (4) There are no management or administration fees for this series since these securities are designed to facilitate fund-of-fund investing where duplication of management fees is prohibited. This series may pay monthly distributions of net income to minimize risks associated with large redemption by other Counsel funds.
- (5) There are no management fees for Series Private Wealth. An investor must enter into an agreement to participate in a discretionary managed program offered by IPC Securities Corporation and agree to pay certain asset-based fees.
- (6) Counsel may, at its discretion, waive or lower the management fee (either directly or indirectly) and/or administration fee payable by investors. Individual investors (excluding Series E investors) may be eligible for a management fee reduction subject to meeting certain requirements as discussed in the Fund's Simplified Prospectus.
- (7) This series is not available for purchase.
