ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | March 31, 2023

## Management Discussion of Fund Performance

June 5, 2023

This Management Discussion of Fund Performance presents the views of Counsel Portfolio Services Inc. ("Counsel") on the significant factors and developments during the year ended March 31, 2023 that have affected the Fund's performance and outlook. For information on the Fund's longer-term performance, please refer to the *Past Performance* section of the report.

In addition, net asset value (NAV) refers to the value of the Fund or a series, as calculated for transaction purposes, on which the discussion of Fund performance is based.

### *Investment Objective and Strategies*

The Fund seeks to achieve a moderate level of income while preserving investment capital and liquidity by investing, either directly or through securities of other investment funds, in a diversified portfolio of fixed-income securities of issuers anywhere in the world. The Fund's investment will include a variety of fixed-income instruments, but will be primarily focused on corporate bonds. The Fund seeks to provide unitholders with exposure to the performance of a diversified portfolio of corporate bonds, divided ("laddered") into groupings with staggered maturity dates. The Fund's investments are expected to have a weighted average credit quality of "BBB-" or higher, as rated by a recognized credit rating organization.

### *Risk*

The risks of investing in the Fund remain as discussed in the Fund's initial Simplified Prospectus. The Fund is suitable for investors who seek: a Canadian fixed-income fund to hold as part of their portfolio; want a medium-term investment; can handle the volatility of bond markets; and have a low tolerance for risk. The Fund is not available to retail investors and is only available to other institutional investors (primarily other Counsel Funds) on a prospectus-exempt basis.

### *Results of Operations*

#### **Investment Performance**

During the year, the Fund's Series O securities returned 1.45%. This compares with the 0.70% return of the FTSE Canada Short Term Bond Total Return Index (the "Index"). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses, and commissions, none of which are reflected in the index returns.

In response to persistently high inflation, the Bank of Canada raised its policy rate by 400 basis points over the period, to 4.50% from 0.50%. Consequently, Government of Canada bond yields increased. The yield increase was more pronounced among shorter-term government bonds, which tend to be more sensitive to central bank policy moves. Higher rates in the government bond market also led Canadian corporate bond yields to increase significantly.

The Fund primarily outperformed due to shorter duration positioning relative to the index. The Fund's allocation to the Government sector also contributed to performance.

#### **Net Assets**

The Fund's NAV increased by \$24.6 million, or 82.7%, to \$54.5 million as at March 31, 2023, from \$29.9 million at March 31, 2022. Of this increase, \$23.7 million was attributable to net sales and \$0.9 million to investment performance.

#### **Fees and Expenses**

The annualized management expense ratio ("MER") for each series during the year ended March 31, 2023, was generally similar to the MER for the year ended March 31, 2022. No management fee or administration fee, other than certain specific fund costs, is charged to the Fund.

### *Recent Developments*

The sub-advisor notes that the investment grade bond market in Canada has priced in a reasonable amount of recession risk. While it remains the sub-advisor's base case that corporate bond spreads (the difference between government bond yields and corporate bond yields) would move wider in 2023, valuations for high quality bonds still look reasonable.

On April 3, 2023, The Canada Life Assurance Company announced an agreement to acquire Investment Planning Counsel Inc. (the parent company of Counsel). The transaction is expected to be completed within 2023. Counsel will continue operate as manager of the Counsel Funds and the agreement is not expected to impact the Fund's operations.

Effective March 31, 2023, KPMG LLP was appointed as the auditor of the Fund.

### *Related Party Transactions*

#### **Management and Administration Services**

Top Funds represent all of the Fund's investors. As a result, Counsel pays all costs and expenses (other than certain specified fund costs) required to operate the Fund. No management or administration fees are paid by the Fund.

#### **Other Related Party Transactions**

Other investment funds managed by Counsel ("Top Funds") invest in Series O securities offered by the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. As a result of these investments, the Fund is subject to large transaction risk as discussed in its Simplified Prospectus. Counsel manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. As at March 31, 2023, Top Funds owned 100% of the Fund's NAV. As of March 31, 2023, Counsel had not received notice of any large redemptions. All related party transactions are based on the NAV per security on each transaction day.

During the year, the Fund did not rely on an approval, positive recommendation, or standing instruction from the Counsel Funds' Independent Review Committee ("IRC") with respect to any related party transactions.

## Past Performance

The indicated rates of return are the historical annual compound total returns, including changes in NAV per security and assuming reinvestment of all distributions. They do not take into account sales, redemption, distribution or optional sales charges, management fees directly payable by investors or income taxes payable by any investor that would have reduced returns. Returns for each series primarily differ because fees and expenses vary for each series. Please refer to *Series Information* for further information. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes, whether paid in cash or reinvested in additional securities. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

## Year-by-Year Returns

The bar charts show how much an investment made on the first day of each financial year would have increased or decreased by the end of the respective periods. For the first year of a series, the percentage shown will be the actual return of the series from its inception date, which can be found under *Series Information*. The charts illustrate how the Fund's performance has changed over time.

## Annual Compound Returns

The Annual Compound Return table shows the annual compound total return for each series of the Fund for the periods shown ended March 31, 2023. The annual compound total return is also compared to the Fund's benchmark(s)<sup>1</sup> calculated on the same compound basis.

(%)	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception
Series 0	1.45	n/a	n/a	n/a	(0.30)
FTSE Canada Short Term Bond Index	0.70	n/a	n/a	n/a	(1.16)

(1) The FTSE Canada Short Term Bond Index is a broad measure of the total return of Canadian investment grade bonds with maturities ranging from 1 to 5 years.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated, "period" represents the period from inception to the end of that fiscal period. Series inception dates can be found under *Series Information*.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. The information presented is derived from the Fund's financial statements prepared in accordance with IFRS. The net assets presented here in this table and in the financial statements may differ from the NAV; an explanation of these differences can be found in Note 3 of the Fund's Financial Statements.

(2) NAV and distributions per security figures are based on the actual number of securities outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of securities outstanding over the financial period.

(3) Distributions were paid in cash, reinvested in additional securities of the Fund, or both.

## RATIOS AND SUPPLEMENTAL DATA

Series 0	Mar. 31 2023	Mar. 31 2022	Mar. 31 2021	Mar. 31 2020	Mar. 31 2019
Total net asset value (\$000's) <sup>1</sup>	54,546	29,860	6,307	n/a	n/a

Management expense ratio (%) <sup>2</sup>	—	—	—	n/a	n/a
Management expense ratio before waivers or absorptions (%) <sup>2</sup>	—	—	—	n/a	n/a
Trading expense ratio (%) <sup>3</sup>	—	—	0.32	n/a	n/a
Portfolio turnover rate (%) <sup>4</sup>	90.92	78.54	11.93	n/a	n/a

(1) This information is provided as at the end of the fiscal period shown.

(2) MER and MER before waivers or absorptions ("Gross MER") are based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily NAV during the period. In the period a series is established, the MERs and Gross MERs are annualized from the date of inception to the end of the period. MER and Gross MER may be impacted by decreases and/or increases in management fees and/or administration fees as discussed under Series Information. Where the Fund invests in securities of an Underlying Fund, the MERs and Gross MERs presented for the Fund include the portion of MERs of the Underlying Fund(s) attributable to this investment.

(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of the daily average NAV during the period. Where the Fund invests in securities of an Underlying Fund, the TERs presented for the Fund include the portion of TERs of its Underlying Fund(s) attributable to this investment.

(4) The portfolio turnover rate ("PTR") indicates how actively the portfolio advisor manages the investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher PTR in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high PTR and the performance of the Fund. Costs incurred to realign the Fund's portfolio after a fund merger, if any, are excluded from the PTR.
